

Madie e contenitori

Slim Up

È una madia altamente personalizzabile con scocca in legno, top in legno, gres o metallo e ante in vetro, gres o nelle varie finiture del legno. L'apertura è con presa a gola o con maniglia XL dall'importante effetto decorativo.

MADIA SLIM UP

Slim Up condivide la scocca e la ricca modularità con Slim e propone due diversi sistemi di apertura. Quello a gola ha una funzione prettamente pratica, mentre la maniglia XL in metallo, oltre a servire per la presa dell'apertura, diventa anche ornamento, da valorizzare ancor di più giocando su contrasti di colore. La versione madia può avere due, tre o quattro ante e varie dimensioni in larghezza e altezza, con ripiani interni in vetro trasparente.

CONTENITORE SLIM UP

Il contenitore Slim Up ha quattro ante e ripiani interni vetro, o a richiesta in legno, e può essere variamente accessorizzato all'interno. Nell'immagine è realizzato in una finitura laccata metallica, che richiede prima una spruzzatura e dopo un'accurata carteggiatura manuale sino a raggiungere l'effetto voluto, simile al metallo spazzolato.

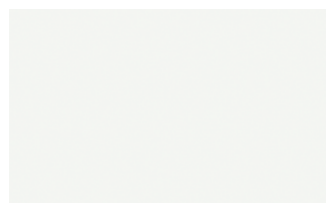

FINITURE

Ti invitiamo a guardare le finiture disponibili per ogni elemento che compone la madia o il mobile contenitore Slim Up per scegliere una combinazione adatta al tuo stile.
