

Laccati opachi - Matt lacquers

Laccati opachi - Matt lacquers

Descrizione

Description

I pannelli sono composti da fibre legnose, sono laccati in modo omogeneo e del tutto coprente con vernici ad acqua atossiche, sicure per la salute di tutti. Offrono numerose possibilità di colore per arredi personalizzati.

Le vernici utilizzate sono a basso residuo secco e atossiche. Il ciclo di verniciatura è ad acqua a basso impatto ambientale. Le vernici all'acqua permettono di ridurre le emissioni di solventi in atmosfera, sono contraddistinte dall'assenza di odori e tutelano la salute dell'operatore e dell'utilizzatore finale.

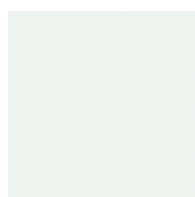

Esistono dei margini di tolleranza dovuti a variazione di tinta per le finiture laccate. In caso di un completamento successivo dell'ordine, non si garantisce la perfetta eguaglianza di colori con la composizione originaria.

Water-borne paints are used for lacquered finishes. The paints are low-residue ones and atoxic. Water-borne paints allow the reduction of the atmospheric emission of solvents and are characterized by the lack of scent, safeguarding the operator's and end consumer's health.

A certain tolerance is due to colour variation for lacquered finishes. In case of subsequent order, it's not possible to guarantee a perfect colour-matching compared to the original composition.
