

Sideboards and storage units

Slim Up

This is a highly customizable sideboard with a wooden shell, wood, stoneware or metal top and doors in glass, stoneware or the various wood finishes. The opening is with a groove grip or XL handle with an important decorative effect.

SLIM UP SIDEBOARD

Slim Up shares the shell and rich modularity with Slim and offers two different opening systems. The groove one has a purely practical function, while the XL metal handle, in addition to serving to grip the opening, also becomes an ornament, to be enhanced even more by playing on color contrasts. The sideboard version can have two, three or four doors and various dimensions in width and height, with transparent glass interior shelves.

SLIM UP STORAGE UNIT

The Slim Up storage unit has four doors and interior glass shelves, or wood shelves upon request, and can be variously accessorized inside. In the picture it is made in a metallic lacquer finish, which first requires spraying and then careful manual sanding until the desired effect, similar to brushed metal, is achieved.

FINISHES

We invite you to look at the finishes available for each element that makes up the Slim Up sideboard or storage unit to choose a combination that suits your style.
